

# Scribblers

INTERNATIONAL PRESCHOOL & DAYCARE

# MISSION

The mission of our school is to provide a nurturing and play based environment which will help augment children's self esteem and problem solving skills, while fostering respect for themselves and others through our various innovative and interactive curriculum activities.

# PHILOSOPHY

We believe in learning through play. Play is the central activity in the life of a child, and through our structured, teachers led play-based activities, children learn naturally how to think, how to solve problems, and how to achieve goals.

How to express their ideas and their emotions, how to cooperate, collaborate and respect each other, how to be a friend.

Scribblers recognizes that the first five years of a child's life involves the most rapid cognitive and physical development.

While having fun they are developing their social, emotional, physical and cognitive foundations they need to succeed - not just in their next school, but throughout their lives.

# PROGRAMMES

## Mother Toddler :

The Mother Toddler curriculum is based on the belief that children learn best through active and engaging sensory experiences. This class allows children (and parents) to gradually separate at their own pace. Nurturing teachers guide children through activities such as music, art, gym, movement, exploration of nature, imaginative play, story time and group snack. Preparing kids safely and confidently for their first preschool experience.

## Playgroup :

Toddlerhood is a time when children begin to develop relationships with others and develop a lifelong love of learning. This educational approach allows lots of direct, hands-on experiences with people, objects, and events. We provide endless opportunities for toddlers to learn and play in an inviting, age-appropriate, and safe environment. We also encourage children to explore and discover while supporting their growing independence.

## Nursery :

Our program is designed to learn through play while encouraging (and noticing) individual interests. By promoting independence and developing an emerging awareness of social behavior, we help young learners expand their world beyond the home to the school community. Teachers support growing independence by providing opportunities for classroom jobs: putting things away, pouring milk, washing hands, and choosing materials and activities during center time. Many opportunities are provided to increase a child's ability to communicate by developing active listening and expressive language skills.

## Daycare :

Scribblers provides an enriched and nurturing environment for babies as young as 6 months. At age of 6 months old, children sleep and eat on their own schedule. Our loving caregivers make sure your child's awake time is spent out of the crib where stretching, pushing and pulling, sights and sounds, cuddling and touching help them learn about their bodies and their world. We ensure that your child's experience at Scribblers is secure, attentive and loving. Parents are always welcome to visit their babies and to call us at any time to check in. Daily care records are maintained for each baby and regularly sent home with parents.

# ABOUT US

Welcome to Scribblers International Preschool and Daycare.

Scribblers is committed to fostering and nurturing your child's creativity, independence and self-sufficiency.

We believe that learning is best achieved in a warm and positive environment where children develop their abilities through a combination of play and academic instruction.

We apply the most recent research-based methods in early childhood education to foster curiosity, develop trust and nurture independence.

We wanted a space which will enrich children learning environment and allows our kids to run around and play with others. And...we wanted it in our neighborhood. So we created Scribblers International Preschool.

## Our Core Values

We foster all aspects of children's growth and development including problem solving skills, empathy and respect, independence, language, social development, self-esteem and confidence.

We focus our collective and individual vigor on the quality of DAY-TO-DAY interactions of children and their teachers in their moments together so that they become rich, interesting, engaging, satisfying, and meaningful. Together we shape a pebble that could have very large consequences.

Scribblers welcome you to join us for an Open House to learn more about our enriched Preschool Program and facility. You will have the opportunity to discover our world-class curriculum, meet our engaging teachers, and explore our bright, inviting classrooms. Each Open House will not last more than one hour.
